Attendance Policy. This is a required attendance course. Regular and punctual attendance and participation are required. A student is **allowed up to four (4) unapproved absences; those absences will not affect the course letter grade. All absences beyond (4) absences must be approved in order to not affect the course letter grade. A phone that is on during class counts as an absence. ALL ELECTRONIC DEVICES ARE REQUIRED TO BE OFF (not simply silenced) IN THE CLASSROOM.**

Authorized absence. An authorized absences is due to participation in a university sponsored activity that has been approved in advance by the director and the appropriate student affairs officer. Such an absence permits the student to make up the work missed when practical or to be given special allowance so that he/she is not penalized for the absence.

Excused absence. An excluded absence is due to other causes, such as illness, family emergency, death in the in the family, or religious holiday. A student **seeking** an excused absence should obtain **documentation** such as a physician's statement, accident report, or obituary and contact all instructors. If students need assistance in contacting faculty, the Dean of Students Office assist students in facilitating communication with their faculty members or academic leadership but does not provide excused absences.

An excused absence must be documented by the student and also approved by the instructor. The instructor deems class attendance and participation as essential. **A student with more than four (4) unapproved absences may be assigned a punitive letter grade including an F for the course.** The instructor reserves the ability to assign seats in the classroom to take attendance.

Catalog. Although students are graded on intellectual effort and performance rather than attendance, **absences may lower the student's grade when the instructor deems class attendance and participation as essential.** In those classes where **attendance** is considered part of the grade, the instructor must inform students at the beginning of the term in the syllabus. Any instructor who informs students in writing about the necessity of **attendance** may request the Office of the Registrar to drop the student from the class. The instructor will need to indicate the student's last date of **attendance** in their request to the Office of the Registrar. A grade of W will be posted to the student's record if the Office of Registrar is notified prior to the deadline for withdrawal without academic penalty. After that date, **the instructor may assign a punitive letter grade for any student that does not abide by attendance requirements.**

Request for an Excused Absence. A student asking for an excused absence must **document the request** by submitting a professionally written memo, typed, 1 sided 8 x 11 sheet of paper, signed and dated under penalties of academic dishonesty, and explicitly state the reason **requesting** an excused absence. Each absence must be separately **documented**. The **documentation** memo is **only accepted on the last day of class** from the actual student asking for an excused absence. **No emails**. The asking student should personally hand delivered the memo to **the instructor during office hours on the last regular class date. Late to class is an absence. Leaving early is an absence.** A powered phone is an absence (phones must be OFF-not simply silenced).

The submission of proper **documentation** is not automatic acceptance as an excused absence. The instructor uses professional judgment and university policy as to approving or not approving absences.

A student selects his/her course letter grade based on her/his intellectual effort and performance (test scores) and compliance with university academic rules and regulations.

The instructor reserves the option of using plus and minus grades. **Numerical ranges corresponding to letter grades are established for each course according to the professional judgment of the instructor.**

Additional Information.

This is a challenging course. The least difficult way to earn a C or better course grade is to **attend every class, pay very close attention, and take very careful handwritten notes.** The rules of financial accounting do not apply to federal income taxation. This class is not about the political, economic, psychological, criminal, social and other aspects of tax policy. This is not a forensics class, not a business law class, and not a debate class. This is a very basic federal income tax class.

The instructor (to the best of his knowledge and ability) follows all written university rules on all issues for all people. Informal. Students may bring an alleged infraction and a copy of the specific written rule(s) to the attention of the instructor within 1 week of the possible infraction, and if the instructor agrees there is an infraction, the instructor will change to comply with the written rules and make every reasonable effort to retroactive eliminate any negative impact of lack of compliance. The line of direct authority is required per university rules. For continuing concerns, the student should seek informal assistance from the Department chairperson.

FOLLOWING INSTRUCTIONS

Free and publicly available statement

Time4Writing.com (<https://www.timeforwriting.com>)

(Underlines and bold and italicized are per instructor).

Following instructions is an important learning skill; it is an essential life skill. Starting from coloring the correct box in preschool and going all the way to applying for social security, directions are an important part of everyone's life. Yet, many seem to have trouble following them.

As toddlers, we are told by our parents not to touch anything that could be potentially dangerous. If we don't listen to those directions, we either get hurt or are put in "time out" to learn our lesson.

Throughout childhood and the teen years, learning to follow directions needs to be reinforced all through a person's education. Many activities have been designed for this sole purpose. Standardized writing exams test this skill as well, as many students fail these each year due to 'not following the directions.'

In the traditional classroom, teachers have developed non-traditional tools to demonstrate the importance of direction following. Some teachers have had students follow a recipe for a favorite age-appropriate food while purposely leaving out an important ingredient. Others have used a simple sheet of tasks numbered one through ten with activity #1 asking the students to read all of the directions before doing anything. The payoff to this lesson is task #10 that will simply say: Now that you have read all of the instructions, please go back and just complete #1 and #2. Of course, many students have jumped ahead and have already finished all of the tasks – not adhering to the first direction to read everything first. Activities as the ones described above can be duplicated by homeschooling parents providing the same lesson to young people.

We also want to emphasize the importance of following directions. ***There are a set of guidelines at the beginning of each course that students are asked to read before they begin.*** They are directed to copy and paste their assignment instructions on to their individual text boxes so that they can have them in full view while working. Students are expected to follow these directions as closely as possible.

So, perhaps in years ahead, students who have taken Time4Writing courses will not have to redo their driver's license applications, have insurance forms rejected, or have tax returns spit out because they were not filled out correctly. They will think back to that online writing course they took that showed them how to write and how to follow instructions.

Notice. This Notice protects **all** rights of **all persons** at **all** times regarding **all** issues in accordance with University rules and local, state, Federal laws. All lectures and course materials are for educational purposes only and do not constitute expressed or implied tax advice and/or legal advice. **All lectures and course materials are the subject of copyright laws. Class may not be recorded for any reason in any manner at any time by anyone, excepting OAS accommodation, documented to the instructor in advance. Any form of recording anyone without their express written authorization in advance may be considered a violation of Federal and/or Florida privacy laws.** All items on Canvas are the property of the instructor and/or the University and may not be copied and/or distributed without the express written authorization the instructor in advance. **Any noncompliance with the above statements violates the University academic honesty policies. All potential violations are pursued per University rules, local laws, Florida laws, and Federal laws.**

VERY Basic Example of Test Instructions
TAX XXXX, Test 1 of 3, Date, Time, Location

PRINT YOUR NAME _____ SCANTRON NUMBER _____

Instructions: This test covers **your ability to follow instructions** and your tax knowledge. This includes your ability to both start and finish not later than the designated times per above. **Do not waste time.** Your ability/inability to **follow these instructions** is a scored part of this test. The failure to **follow these instructions** can reduce the scantron score by up to 100 points. Remove everything from your desk area except for a current photo ID, pencils, erasers, drink/water, and watch. Turn off all electronic communication devices. Print your name above. Your last name from above must match your last name per the university's class list. Print your name and scantron number from above on the name line on the blue side of the scantron. Use a No. 2 pencil to mark the best response to each of the test questions on the blue side of the scantron. The best response is the one that matches the key used to score the scantron. Keep the test pages stapled together. You may write/mark on the questions. **Do not use scrap paper.** Do not use any electronic device. **No calculators.** You must turn in the test questions and scantron before the end of the testing period. You must show a current photo ID when you turn in the test questions and scantron. Do not make stray marks on the scantron. Sign the academic honesty statement. **Do not talk or ask the instructor questions during the test and/or after class.** In the case of a personal emergency (bathroom break, panic attack, etc.), write "personal emergency" on the top of the test questions, turn your test questions and scantron face down, then leave the room quietly (do not leave the building), and return when the personal emergency is complete. A personal emergency does not increase the time allowed to complete this test. If you do not return to the classroom before the end of the testing period and/or you must leave the building, go directly to the FGCU Student Health Services (Wellness Center building) for assistance. In the case of a classroom/building emergency (fire alarm, etc.) turn your test questions and scantron face down, and quickly leave the building. The test will be rescheduled on a future class date. Test scores will be posted on Canvas. Print any issues you have with any questions on these lines. Do not waste time. This test is the property of the instructor and protected by federal copyright laws. GOOD LUCK!

ACADEMIC HONESTY STATEMENT I have not given and I have not received any assistance during the testing period. I understand the test questions and scantron are the property of the instructor. I understand I must show a current photo ID and return both the questions and scantron to instructor before the end of the test period. I understand any violation of these requirements is the failure to adhere to the academic honesty policies of the University. I understand an F grade for the course is assigned to all students that do not follow all of the academic honesty policies of the University.

TEST SCORES ARE POSTED ON CANVAS. Canvas is the only university approved method of releasing tests scores. COURSE LETTER GRADES ARE POSTED ON GULFLINE. GULFLINE is the only university approved method of releasing course letter grades.
